- LPM02: Lip Pull Mylar Bag (Child Resistant)
- LPM03: Thumb Pull Mylar Bag (Child Resistant)

Lead Times:

- Quote: 24-48 hours from request
- Print Plate: 7 days
- Production: 20-25 days
- Ocean freight: 22-28 days to West Coast
- Air Express: as fast as 2-3 days

Samples:

- 2-3 weeks from request
- Pre production sample cost paid by customer or waved on QTY over 300k pcs

Minimum Order Quantity:

- 10,000 pcs is standard

Benefits of Multilayered Film Construction

- Make film weaker/stronger
- Strengthen printing abilities
- Enhance barrier properties
- Glossy or matte finish
- Clear or frosty windows
- Different films (AL, PP, CPP, OPP, PVC, PA, PE, VMPET, EVOH)
- Environmentally friendly option: degradable paper base

Production Limitations:

- Largest normal bag: 78.7"(W) X 35.4"(L)
- Largest round bottom gusset bags: 14.5"(W) X 35.4"(L) + gusset 9.44"(L)

Printing Capabilities:

- Full color printing CMYK

Certifications:

- Meet FDA's Food Contact Substance Requirement
- ASTMD 3475 (Child Resistant)
